

INTRODUCTION

SIGMA PROJECTS is specialized in design and manufacturing

Services of Foundation bolts, U bolts, J bolts, Studs, Anchor bolts, Sag rod, Tie rods and all types of threading Items.

The company has been laid by professionals having rich experiences in business development,

Project management, project execution and customer relationship.

The necessity to meet the growing demand of Foundation bolts in India and to provide

Complete end to end solution to clients for their buildings requirements has been the main

Reason for emergence of SIGMA PROJECTS. Our aim is not merely supply

The buildings to customers but to put in use our expertise at each and every stage of project right

From the initial stage i.e. concept and planning, designing, detailing, manufacturing and

Execution of projects to provide customer an economical and a superfast solution for his

Requirement.

VISION

To be the most reliable solution provider in the field of Pre-Engineered Buildings and Structural Steel projects.

MISSION

Our mission is to provide complete end to end solution to clients for their steel building

Requirements and enrich them with the experience at our services with utmost satisfaction.
